Let the Show Begin!

ANOTHER HOT HOUSTON summer is upon us and it's time to look for ways to cool down in the summer sun. And the best place to do that is the Houston Summer Boat Show.

If you're new to boating or even thinking about it, then the Houston Boat Show is the perfect place to learn more. Did you know there are 365 million trillion gallons of water on the

earth? Learn about how exploring the open water helps reduce stress from fast-paced everyday life and brings families together while they create lifetime memories. Experienced boaters already know about the benefits of boating and they also know that the Boat Show is the place to go to get greatest deals on new boats and boating gear and to learn about the latest in marine technology and maintenance.

The 2014 Houston Summer Boat Show features hundreds of powerboats, personal watercraft, fishing gear,

wake and ski accessories and fun activities for the whole family. Also shop the more than 100+ exhibits that offer the latest in electronics, dockage, clothing, jewelry and other must have accessories.

Whether you're in the market to upgrade or looking for your first boat, The Houston Boat Show will help to keep the fires burning until you have the chance to launch your boat for the first time.

Boat shows aren't just a fun atmosphere to walk around in; they contain

all the latest gadgets and gizmos you can imagine to deck out your boat. And – the best part about a boat show is the screamin’ deals you’ll find.

Here are a few tips to help you navigate The Houston Boat Show:

Make sure to do your homework before you attend. It’s always a good idea to know what you’re looking for when you walk in. What type of boat fits your lifestyle? Will you spend a lot of time on big water? Are your preferences more toward performance and styling? Does your family spend most of the time on the water skiing, wakeboarding or tubing? Do you need storage and seating for a lot of friends and family? Have you thought about anchoring somewhere? These questions all come in to play when you’re boat shopping.

Make friends with your dealer. The feeling that you get from your dealer is

Get a fish-eye view of fishing in the 5,000-gallon BassTub aquarium.

almost as important as the type of boat you buy. Why? Because when it comes to getting a great deal, they play an instrumental part in the process. They are also there for anything you need after your purchase including storage and routine service. The salesperson at the booth is someone you really want to talk to and if possible, speak to the owner of the dealership. You might find out that they’re a fellow

Houstonian or maybe even a neighbor. A great dealer understands that it’s not just about making a sale; it’s about maintaining a long-term relationship for return business.

Don’t just look at price – shop for value. This really is harder than it sounds because cheaper doesn’t always mean value. At just about every boat show, you will find competing prices between lines. Make sure to ask about

quality construction, resale value and offers to finance.

Keep these things in mind and walk away patting yourself on the back for making the best boating decision possible.

So enjoy the 2014 Houston Summer Boat Show, where there are plenty of sizzling summer deals on hot summer fun—all in an oasis of air-conditioned comfort.

The BassTub Lets You See the Strike

The BASSTUB is an educational, innovative fishing seminar on wheels. The BASSTUB is a unique aquarium, approximately 40 feet long, holding 5,000 gallons of water, which has been transformed into a natural habitat for various species of bass. This makes it possible to perform casting demonstrations with live fish, giving the viewer the chance to see the fish and lure interaction clearly.

These fishing seminars are directed by professional angler Chuck Devereaux from atop his perch on a mounted boat at the end of the tank. Chuck demonstrates a variety of casting and retrieval techniques. The audience can see fish swimming and chasing lures as Chuck demonstrates his casting tips and tricks and how to handle the fish once it's hooked.

Chuck Devereaux has been in the fishing business all his life and is an accomplished seminar speaker. He has given fishing seminars in all forty-eight contiguous states, Mexico, Canada and Brazil. Chuck started Bass Tubs of Oklahoma, Inc., with one tub in 1990, growing to six units traveling across the United States and into Canada.

Get Wet and Wild, Without the Wet Part

Roll, flip and spin on water without getting wet in a giant Bubble Runner

Flip, spin, or just walk on water in the Bubble Runner attraction.

“human hamster ball.”

These 6-1/2-foot tall inflatable balls are used by all ages, all over the world. After you climb inside, the ball is filled with air and you can run like a hamster around a huge inflatable pool. Bubble Runners are completely safe, and perfect for playing in water without getting wet.

LIGHTWEIGHT.

The lightest 200-hp four stroke on the market

POWERFUL.

2.8L displacement and Variable Camshaft Timing give it the best power-to-weight ratio of any 200-hp four stroke

COMPACT.

Nearly 120 pounds lighter than our four-stroke V6 F200, it's ideal for a variety of applications, even with 26-inch mounting centers

THE ALL-NEW F200 IN-LINE FOUR. FORWARD THINKING.

Show the water who's boss with the new F200 In-Line Four. Incredibly light, responsive and fuel efficient, it serves up plenty of muscle to handily propel a variety of boats. On top of that, its 50-amp alternator offers the power to add a range of electronics, and its 26-inch mounting centers and compatibility with either mechanical or digital controls give you the flexibility to easily upgrade your outboard or rigging. Experience legendary Yamaha reliability and the freedom of forward thinking, with the all-new F200 In-Line Four.

Scan code* to learn more about the new F200 In-Line Four or visit YamahaOutboards.com/F200InLine.
